FOR IMMEDIATE RELEASE

Crabapple Turf Management and Unlimited Landscaping & Turf Management partner on residential fertilization and weed control services

Atlanta, October 27, 2009 – Crabapple Turf Management, Inc. and Unlimited Landscaping & Turf Management, Inc. announced today that they have merged their residential turf care application services. The partnership and the combined account services make it one of the largest and most productive turf care providers in the Atlanta metro market.

“We are very pleased to partner with Unlimited Landscaping & Turf Management on our residential fertilization and weed control services,” said Bill Coleman, CEO of Crabapple Turf Management. “They are a well-established business, having grown wisely over the last several years, and they have an excellent reputation and high service standards.”

Scott Whitehead, CEO of Unlimited Landscaping & Turf Management, added, “The best part of this partnership is that the customers will continue to deal with the same technicians, sales, and staff. We will be able to coordinate resources which will allow for better efficiencies and quality control. Ultimately, this means the customer will receive a better product and we can respond more quickly to customers needs.”

Three Point Group, Inc advised on the merger. Jeff Harkness, managing partner of Three Point Group, stated “This is a great opportunity for both companies to leverage their strengths. The partnership provides for easy conversion of customers and leads and creates what I believe is one of the premier residential turf care providers in the market. This structure will help accelerate growth, enhance best practices and provide customers a top notch product at a top notch price.”

In the immediate future, Unlimited Landscaping & Turf Management will operate the production and sales component from their Gwinnett production center with plans to open a west side satellite location in early spring. “We look forward to providing our customers the same high-quality service they are used to and now with greater coverage,” Mr. Coleman said. “This partnership has energized both leadership teams, allowing us to focus on what we do well and separate us from the competition when it comes to quality, pricing and responsiveness.”
